By using this application you agree to
the Terms of Use

www.warrantylife.com

This is the app main page.

1. When you click Product Registration, you should see a coverage start date and coverage end date.
2. When you hit Certification tool, you should see "This device has already been registered."
3. If this does not come up, you have not completed the required registration.

FAQ'S

1. Can the dealer/retailer register the product?
Yes, this product allows 100% registration rate.
2. How long does the customer have to register the product? They have up to one year to register, they are only covered if the product is correctly registered and the warranty start at the time of purchase. There is a 7 day wait period from time of registration to make a claim.
3. Can my claim be denied if the app gives me a coverage start date and end date?
Yes, if the picture taken during the app test are not clear or not of the front or the back of the device, showing an undamaged item, it can be denied.
4. What happens if my device doesn't pass the diagnostic testing?
In this case, you will not be able to register the product.
5. What if my phone will not download the app?
You will need to register online, www.warrantylife.com/signup
6. What happens if the phone does not pass a test?
The app will not let them register or we could not cover that component of the device under warranty. They would need to get the phone repaired before the warranty would be valid. Or they could use the warranty on another device.
